## Advanced AAI Course in Iceland

12-14 January 2010

By generous invitation of the Iceland Board (RNF), SCSI is pleased to announce that it will be conducting an Advanced Aircraft Accident Investigation course in Reykjavik , Iceland, 12-14 January 2010. Enrollment for this course is now open for registration. The course will give a brief review of aircraft accident investigation topics, and then go into an advanced level presentation of information vital to those in the investigation field. Specifically, the course will cover response procedures and initial investigation steps, plus advanced subjects facing Annex 13 Investigations. Topics will include Electronic Component Investigations, System Safety and Investigations, Aging Aircraft Issues, Protection of Evidence, Human Factors Investigations and Confidentiality of Witnesses.

### Course Instructors

- **Gary Morpew**  
*Director of Aircraft Accident Investigation, SCSI*
- **Caj Frostell**  
*former ICAO Accident Investigation and Prevention Branch Chief*
- **Richard Perry**  
*Perry Associates, formerly of Sandia National Laboratories*
